REPLACEMENT INSTRUCTIONS FOR 14 IFM POT

The 14 IFM fryer pot is shipped with a new flue box mounted, with new center tube divider and baffles secure in place, with new side, front and rear insulation and liners attached, and new thermostat and high limit probe fittings secured leak proof. The items required to be disassembled from the removed fry pot are the burner mounting plate with burners and center tube cover plate, the center tube divider with baffles, and the flue box stack. Reassemble these 3 items to new fry pot as they were in the removed fry pot. Also included as loose parts are new burner to tube sealing gaskets (2 for each burner) and 2 center tube sealing gaskets. Replace during reassembly.
