REPLACEMENT OF ELECTRIC GRIDDLE THERMOSTAT

TO REPLACE THERMOSTAT:

- With a 9/16" deep socket wrench, loosen nuts (#6) several turns. It is not necessary to remove them.
- Loosen nuts (#7) to Dispersion Plate. Remove nuts (#7) on one end so dispersion plate is hanging free.
- Remove old thermostat bulb.
- Slide thermostat bulb through slots pictured in items 2, 3, & 4.
- With bulb tight against the plate, tighten all nuts.
